GINAALEGAR PAGPANGHILO SANG MGA IDO KAG KURING SA GUIMARAS, GINKAHANGAW-AN SANG MGA ANIMAL ADVOCATES

Daku nga kahangawa sa pila ka mga animal rescuers kag advocates ang ginpahayag pagpanghilo kag pagpamatay sa mga layaw nga ido kag kuring sa pila ka mga barangay sa Guimaras.

Sa isa ka post sang Hopeful Tails-Guimaras, isa ka stray rescuer, ginpabutyag sini ang iya pagkahangawa matapos ginpahayag natalupangdan sini nga ang pila sa mga sapat nga iya ginapakaon kag ginatatap ang nadula kag nagkalamatay.

Suno sa iya, lakip sa mga nadula amo ang pila ka mga rescue cats nga gin-spay kag gin-neuter, subong man ang isa ka layaw nga ido nga madugay na niya nga ginaatipan.

Ginpahayag man sini nga may mga report nga may mga nagapanghilo sa nagkalain-lain nga barangay. May mga alegasyon man nga nagagamit sang pusil batok sa mga layaw nga sapat.

Apang ini nga mga alegasyon wala na

Sep 09, 2026 07:22:20

Apang, ini nga mga alegasyon wala pa makumpirmar sang tul-id kag wala pa sang maathag nga resulta sang imbestigasyon nga nagapamatuod kon sin-o ang responsable.

Nagpanawagan ang mga animal advocates para sa mas makatawo kag luwas nga mga paagi sa pagkontrol sang populasyon sang mga sapat nga nagalagaw, pareho sang spay/neuter, pag-adoptar, pagluwas, kag responsable nga pag-atipan sa mga hinuptanan.

Ang sin-o man nga may impormasyon nahanungod sa posible nga pagpamintas ukon pagpatay sa sapat gina-engganyo nga magsumiter sang ebidensya kag ireport ini sa natungdan nga mga awtoridad ukon mga organisasyon sa kaayuhan sang mga sapat para sa nagakaigo nga imbestigasyon.

The Philippines posted its highest scores yet in science, mathematics, and reading in the 2025 Programme for International Student Assessment (PISA), the Department of Education said Tuesday, September 8, 2026.

Filipino 15-year-old learners scored 373 in science, 371 in mathematics and 367 in reading, up by 17, 16 and 20 points, respectively, from the country's 2022 results.

The Philippines ranked 77th out of 91 participating countries in science, 74th out of 90 in mathematics, and 72nd out of 90 in reading.

Despite the gains, the country remained below the Organisation for Economic Co-operation and Development (OECD) average scores of 482 in science, 463 in mathematics, and 461 in reading.

Based on mean scores, the Philippines outranked 14 countries in science, 16 in mathematics and 18 in reading. The OECD's 10-year trend analysis also identified the Philippines as the fastest-improving country in reading performance. | via Francis Orcio, ABS-CBN News

With the arrest of his cousin, former Speaker Romualdez, the President's critics who have accused him of weak leadership and a lack of resolve in confronting the flood-control mess should now be silenced by his actions.

The Ombudsman likewise deserves all the praise and support from the Filipino people.

Let the trial proceed and let the evidence speak.

Most importantly, the former speaker is now given his day in court.

BAKIT SEPTEMBER 8 ANG PETA NG KAPANGANAKAN NI BIRHENG MARIA?

Sa paniniwalang Kristiyano, madalas na ginugunita ang kapistahan ng isang banal o santo sa petsa ng kamatayan nito, na isang 'die natalis' o pagsilang sa walang hanggang kasiyahan (everlasting happiness). Gayunman, may dalawang banal na ipinagdiriwang ang kapistahan sa araw ng kapanganakan nito: sina Birheng Maria at si Saint John the Baptist. Ngayong araw, ipinagdiriwang ang kapanganakan o Natividad ng Birheng Maria.

Wala sa Bibliya ang petsang September 8 bilang kapanganakan ni Maria. Kung mapapansin, ang September 8 ay siyam na buwan mula sa December 8, ang itinakdang petsa ng Dakilang Kapistahan ng Paglililihi ni St. Anne kay Maria o mas kilala bilang Feast of the Immaculate Concepcion. Sakto ang siyam na sa normal na bilang ng pagdadalang-tao ng isang ina. Gayunman, nauna nang ipagdiwang ang kapistahan ng kapanganakan ni Maria bago pa man italaga ni Pope Pius IX ang Immaculada Concepcion noong 1854.

Sinasabing ang Byzantine Church ang unang nagdiwang ng Natividad ni Maria. Dahil sa buwan ng Setyembre nagsisimula ang liturgical year ng Byzantine Church, ito rin ang buwang napili unang gunita ang kapanganakan ni Maria.

Byzantine Church, ito rin ang buwang napili
upang gunitain ang kapanganakan ni Maria.
Naniniwala ang mga iskolar na napili ang
Setyembre dahil bukod ito ang simula ng taon ng
Byzantine, ito rin ang simbolikong simula ng
kaligtasan ng sangkatauhan sa pagsilang ni
Maria, na kalauna'y magluluwal kay Hesukristo.
Noong 7th century nang ipakilala ang Natividad
sa Roma. Si Pope Sergius I ang nagtakda na
isama sa mga kapistahan ang Natividad ni
Maria.

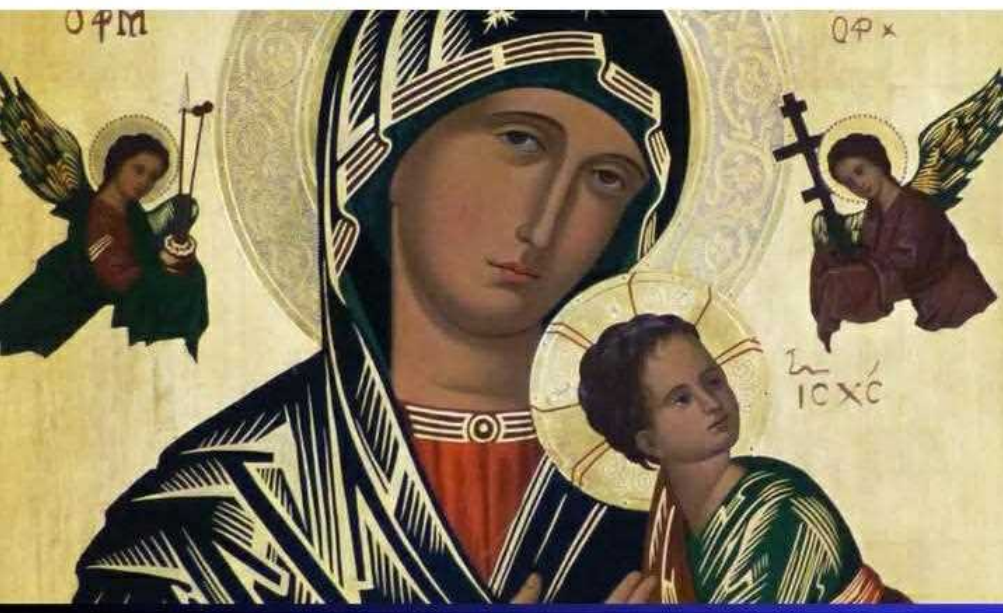

Ang detalye sa kapanganakan ni Birheng Maria
ay hindi rin mababasa sa Bibliya kung hindi sa
mga sinaunang tala at tradisyon. Sa
'Protoevangelium of James' na pinaniniwalaang
isinulat noong unang bahagi ng 2nd century,
sinasabing sina St. Anne at Joachim ang mga
magulang ni Maria. Sa kabila ng kawalan ng
kakayahan ng mag-asawa na bumuo ng supling,
nanatiling matibay ang kanilang
pananampalataya sa Panginoon. Ang kanilang
pananalig ay pinagkalooban ng himala nang
mabuo si Maria.

A total of six American tennis players have surged into the singles quarterfinals at the 2026 U.S. Open, the most since 2002.

On the women's side, Coco Gauff, Jessica Pegula and Emma Navarro are into the quarterfinals, while in the men's draw, Ben Shelton, Frances Tiafoe and Alex Michelsen will play in quarterfinal matches.

The last time this many Americans advanced so far in the U.S. Open was over 20 years ago, when eight American players reached the quarterfinals of the 2002 U.S. Open, according to the United States Tennis Association, which runs the tournament.

MANUAL LOAD DROPPING (MLD)

VISAYAS

NGCP may implement Manual Load Dropping (MLD) in the following areas today, 8 September, to maintain the integrity of the power system:

1PM- 10PM	5PM- 9PM
VECO	MEYECO II
MECO	AKELCO
CEBECO I	DORELCO
CEBECO II	LEVECO III
CEBECO III	LEVECO IV
NEPC	LEVECO V
NOCECO	ESAMELCO
NORECO I	BILECO
NORECO II	NORSAMELCO
NONECO	SAMELCO I
	SAMELCO II
	BOHECO II

The implementation of Manual Load Dropping (MLD) is due to limited generation and no import power from Mindanao grid.

Schedule may be cancelled if system condition improves, such as if actual demand falls below projections.

NGCP encourages everyone to exercise prudence in using electricity.

China's position on the South China Sea arbitration is clear, consistent and firm. The arbitration violates fundamental principles of international law. The so-called award is illegal, null and void, and has no binding force. China ~~has~~ neither accepts nor recognises the award, and opposes and will never accept any claim or action arising from it.

China will continue firmly safeguarding its sovereignty, rights and interests in accordance with the law, properly handling maritime ~~disputes~~ disputes with parties concerned, through dialogue and consultation, to jointly safeguard peace and stability in South China Sea.

ON THIS DAY
Setyembre 9, 2013, nakasagupa ng mga puwersa ng gobyerno ang rebeldeng grupong Moro National Liberation Front na nagtangkang itaas ang bandila ng Bangsamoro Republik sa Zamboanga City Hall.
Nasa 200 ang nasawi sa atake kabilang ang mga sundalo, pulis, sibilyan, at rebelde. Nasa 10,000 kabahayan ang nasunog. Aabot sa \$73 million ang pinsala sa lungsod.
Makalipas ang 5 taon, pinalaya ang 97 miyembro ng MNLF na sangkot sa tinawag na 'Zamboanga siege.' Pinagmulta sila ng P5,000 bawat isa.

Duag sang Nagligad... | Iloilo Provincial Hospital, 1945

Before it became part of the modern healthcare story of Iloilo, this old building stood as a witness to a province rebuilding after war.

This historic photograph, taken in August 1945, shows two Filipino nurses standing on the balcony of the Iloilo Provincial Hospital. The photograph is part of the digital collections of The National WWII Museum, donated by Paulette Stewart. The museum's record identifies the building as a Filipino hospital and notes that another sign on the structure had been covered, reading "Dunwoody Dormitory."

Just months after the liberation of Iloilo, the hospital was already part of the province's return to normalcy. According to the hospital's historical account, its operations resumed in April 1945 following the arrival of the American Liberation Forces with

account, its operations resumed in April 1945 following the arrival of the American Liberation Forces, with medical supplies, equipment, surgical instruments, electricity, and water services restored. On August 1, 1945, administration was turned over to the Commonwealth Government and pre-war employees were recalled to service.

Two nurses. One old hospital. One photograph frozen in time.

Today, the institution's long medical journey continues in different forms—but this image reminds us of a time when Iloilo was healing not only its patients, but also itself.

NATIONAL CONVENTION OF SECRETARIES
TO THE SANGGUNIAN

Malugod nating tinanggap dito sa Iloilo ang mga Secretaries to the Sanggunian, Vice Mayors, Sanggunian Members, at mga delegado mula sa iba't ibang bahagi ng Pilipinas para sa National Convention and PEARL Anniversary Celebration ng Philippine League of Secretaries to the Sanggunian, Inc. (PLEASES).

I joined Board Member Rolando Distura in welcoming our delegates and had the opportunity to share an inspirational message during their national gathering.

As Vice Governor and Presiding Officer of the Sangguniang Panlalawigan, I have seen firsthand how important our Sanggunian Secretaries are to the legislative process. Behind every session, ordinance, resolution, committee hearing, and official record is a team that helps keep our legislative institutions organized, accountable, and working.

Congratulations to PLEASES National President Timothy V. Vista, National Chairperson Zenaida N. Nor, Convention Director and Region VI President Jose Ma. Angel Guaco, Region VI Chairperson Gynnyn G. Gumban, ASSIG President Rocil Latanafrancia, and everyone who made this

President Jose Ma. Angel Guaco, Region VI Chairperson Gynnyn G. Gumban, ASSIG President Rocil Latanafrancia, and everyone who made this national gathering possible.

Sa ating mga Secretaries to the Sanggunian at mga lokal na mambabatas mula sa buong bansa, maraming salamat sa inyong mahalagang serbisyo sa ating mga pamayanan.

Welcome to Iloilo! I hope you brought home new ideas, stronger partnerships, and renewed energy for better local legislation and better public service.

In June 1969, the U.S. Army Corps of Engineers temporarily diverted water away from the American Falls at Niagara to investigate erosion and massive rockfalls that had accumulated at its base.

Workers used 1,264 truckloads and about 27,800 tons of rock and earth to construct a 600-foot (183 m) cofferdam between the mainland and Goat Island.

With the riverbed exposed, engineers drilled dozens of test cores, mapped fractures, measured water pressure inside the rock and installed instruments to detect movement. They even used sprinklers to keep exposed shale damp so it wouldn't deteriorate while the water was gone.

The American Falls remained dewatered from June 12 to November 25, 1969. Engineers ultimately decided against removing the enormous pile of fallen rock because it was part of the natural evolution of the falls and removing it could create additional stability problems. The temporary dam was dismantled and the water returned.

Gospel of the Day (Luke 6,20-26)

Raising his eyes toward his disciples Jesus said: "Blessed are you who are poor, for the kingdom of God is yours. Blessed are you who are now hungry, for you will be satisfied. Blessed are you who are now weeping, for you will laugh. Blessed are you when people hate you, and when they exclude and insult you, and denounce your name as evil on account of the Son of Man. Rejoice and leap for joy on that day! Behold, your reward will be great in heaven. For their ancestors treated the prophets in the same way.

But woe to you who are rich, for you have received your consolation. But woe to you who are filled now, for you will be hungry. Woe to you who laugh now, for you will grieve and weep. Woe to you when all speak well of you, for their ancestors treated the false prophets in this way."

"South Park" is changing its name to "South America" for Season 29.

Trey Parker and Matt Stone jokingly announced that 'SOUTH PARK' will be renamed 'SOUTH AMERICA.' 🤔

"Inspired by the bravery and patriotism of Apple and Google, we are changing the name of South Park to SOUTH AMERICA. We especially want to thank our parent company, Paramount — a Skydance Capitulation."

The announcement is part of South Park's signature satirical humor, so fans shouldn't take the name change too seriously. The iconic animated series is known for making playful and controversial jokes about current events and popular culture.

I will use these images for my lecture discussing Goffman's dramaturgy -- specifically impression management.

Have you ever wondered why people act the way they do or "perform" in a certain manner in certain social situations? Erving Goffman (1959) describe social interactions as a performance, hence he used the idea of a theatre as a metaphor for social action.

Much like actors or actresses in theatre there is an existing platform or frame they stand, and a narrative they want to communicate to their audience. There is a specific direction as regards to what they want the audience to know and perceive (front stage) and not know (back stage)

For example there a lot of politicians in the Philippines that utilize the image of medical emergencies or injuries which they intend to communicate to their audience or us -- the public, and in order for it to work they and not us look into their back stage, they have to perform the whole act and this is where "impression management" is fully utilized.

Impression management is the totality of the process where performers regulate and control their actions, habits, and self-presentation. These politicians want to be perceived as competent and in control of the situation hence they a

Impression management is the totality of the process where performers regulate and control their actions, habits, and self-presentation. These politicians want to be perceived as needing medical attention hence they act like patients.

They use props -- neckbraces, crutches, wheelchairs, and now even hospital beds and dextrose to sell the image that they need medical attention because they need the public especially their supporters that they are in a dire state.

However, everything is an act to conceal their true selves.

In 1875, 23-year-old Estelle Faguet from Pellevoisin, France, was dying of tuberculosis. In desperation, she wrote a beautiful letter to the Blessed Virgin Mary:

"I am falling at your feet, Mother of Mercy... I am your child and I love you! Obtain for me the grace of your Son."

She begged Mary to care for her poor parents and niece, fearing they would be left begging after her death.

On the night of February 14–15, 1876, Satan appeared at her bedside. But the moment Our Lady appeared, the devil fled in terror. Mary said: "What are you doing here? Can you not see that she bears my mark and the mark of my Son?"

Then, with great tenderness: "Do not be afraid, because you are my child."

Mary reminded Estelle of her childhood consecration as a "Child of Mary" and promised:

"On Saturday you will be healed."

Estelle initially wanted to die, but Our Lady gently replied with a smile:

"Ungrateful one! If My Son gives you life, He does it because you still need it."

She showed Estelle her past sins but comforted

it because you still need it."

She showed Estelle her past sins but comforted her:

"All this is a thing of the past. Through your self-denial you have turned evil into good."

Mary was especially moved by Estelle's letter.

Estelle was miraculously healed. In later apparitions, Our Lady revealed the Scapular of the Sacred Heart, saying: "I love this form of piety."

On December 8, 1876, in the final apparition, Mary told her: "You will never see me again... but I will be with you invisibly. Do not be afraid."

While there was no immediate formal declaration on the apparitions themselves, the Church has strongly supported the devotion. Popes granted indulgences, approved the Scapular, and in August 2024, the Vatican (Dicastery for the Doctrine of the Faith) issued a Nihil Obstat, encouraging devotion to Our Lady of Mercy at Pellevoisin.

MASABAD NGA PASAHERO SANG EROPLANO, GIN-DUCT-TAPE SA IYA BANGKO

Ano ang himuon mo kun ikaw ang crew sang isa ka eroplano kag may nagmaoy nga pasahero samtang yara sa tunga-tunga sang flight?

Sa American Airlines flight halin sa Texas padulong sa New Jersey, nangin racist sa airline staff kag nangin bayolente sa mga kaangay nga pasahero ang 67 anyos nga lalaki.

Natabuan man nga yara sa amo nga flight ang tag-iya sang isa ka Gun For Hire store kag empleyado sini nga anay police officer.

Kaupod sa iban nga mga pasahero, gingapos nila ang lalaki sa iya bangko gamit ang duct tape kag zip ties.

Sang naghugpa ang eroplano, gilayon ini nga gindakop sang Maryland Transportation Authority Police.

The virgin Battle of the Chongchon River vs the gigachad Battle of Yultong

US 8th Army

- Consists of 255,000 men comprising of American, British, South Korean and Turkish soldiers and divided into eight divisions
- Supported by thousands of tanks and planes plus naval gunfire
- Was outflanked and almost destroyed by the Chinese Army* at Chongchon River (*only had 230,000 poorly equipped and hungry soldiers, UN forces actually outnumber them by 25,000)
- Only two out of eight divisions survived the Battle of Chongchon River, the Turkish brigade was lost completely
- Bugout Boogie, the longest retreat and rout in American history
- Lost the entire northern half of Korea forever, making North Korea and the Kim dynasty survive until today
- Even losing Seoul to an exhausted

Philippine Battalion Combat Team (PEFTOK)

- Consists of just 900 soldiers (yes, nine hundred.)
- Desperately requested by UN because of the mess up they did in northern Korea, and because the Chinese are advancing at an unstoppable pace risking the fall of South Korea to the commies
- Had to face 40,000 battle hardened Chinese soldiers (who were just finished crushing the British, Belgians and Luxembourgers up north) all alone because everyone else have already retreated tuck and tail
- Was ordered by the UN to withdraw south but refused and disobeyed.
- Successfully defeated and counterattacked the much larger Chinese army, routing them off the field completely
- Single-handedly saved Seoul and

Happy Birthday, Mama Mary!

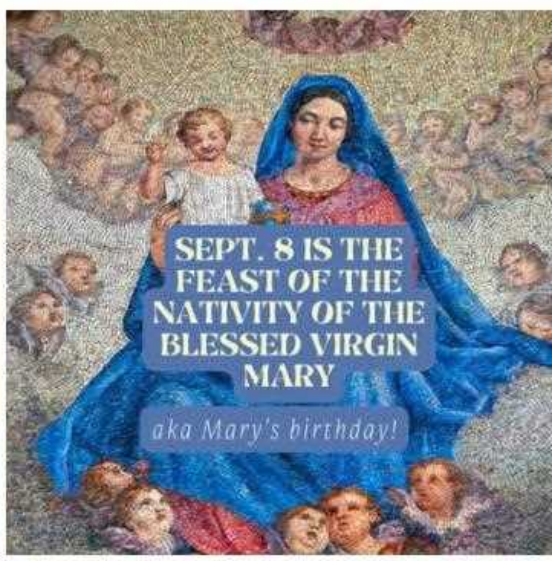

Here are some family-friendly (and simple!) ways to celebrate Our Blessed Mother today.

Hail, holy Queen, Mother of mercy, hail, our life, our
sweetness and our hope. To thee do we cry, poor
banished children of Eve: to thee do we send up
our
sighs, mourning and weeping in this vale of
tears.
Turn then, most gracious Advocate, thine eyes of
mercy toward us, and after this our exile, show
unto
us the blessed fruit of thy womb, Jesus, O
merciful, O
loving, O sweet Virgin Mary! Amen.

But they'll have you believe it's the same church.

THE CATHOLIC CHURCH: TRADITION & PRACTICE THROUGH THE AGES				
Same Church? Yes. Same Practices? No. A Look at How the Catholic Church Evolved.				
100 AD The Early Church	600 AD The Church Becomes Imperial	1200 AD The Medieval Church	1600 AD The Counter-Reformation	TODAY The Modern Catholic Church
 "They continued steadfastly in the apostles' doctrine..." <i>Acts 2:42</i>	 "The bishop of Rome has the primacy." <i>(Later tradition, 6th century)</i>	 "The Church is the ark of salvation." <i>(Medieval tradition)</i>	 "The Mass is the center of Christian life." <i>(Council of Trent, 1545-1563)</i>	 "The same yesterday, today and forever." <i>Hebrews 13:8</i>
Rosary Not practiced. Personal prayer and Scripture reading were the norm.	Rosary Emerges in the East; not yet a central practice in the West.	Rosary Widely promoted. The "15 mysteries" become common (later).	Rosary Strongly promoted (after 1500). Used as a weapon against Protestantism.	Rosary One of the most common practices, encouraged for daily use.
Priesthood Bishops, presbyters, and deacons. No "priest" as a separate sacerdotal class.	Priesthood Hierarchical structure solidifies. Celibacy begins to spread (not universal).	Priesthood Fully developed sacerdotal system. Priests offer the Mass (understood as a real sacrifice).	Priesthood Seminary system formalized. Greater emphasis on celibacy and priestly identity.	Priesthood Same sacerdotal structure, but with more options (e.g., married priests in some Eastern Catholic Churches and limited exceptions).
Popery No pope as a universal ruler. Local bishops led individual churches (e.g., Rome, Antioch, Alexandria).	Popery The papacy gains power in the West. The Bishop of Rome becomes a dominant figure.	Popery Papal authority reaches new heights. The Pope is seen as supreme in both spiritual and temporal matters ("Two Swords" theory).	Popery Papal authority reaffirmed. The Pope is the visible head of the Church on earth.	Popery The Pope remains the central figure of global Catholicism, with expanded influence (Vatican II and beyond).
Incense Not part of regular worship (used in some Jewish traditions, not in Christian worship).	Incense Increased use in liturgy; becomes a symbol of sacred worship.	Incense Common in Mass and major feasts.	Incense More widespread and elaborate use in liturgy.	Incense Still used, especially in solemn and traditional liturgies (but less common in many parishes).
Mariology Mary honored as the mother of Jesus, but not elevated above the other disciples.	Mariology Mary's veneration grows. Titles like "Theotokos" (460 AD) are affirmed.	Mariology Doctrines like the Immaculate Conception (gradually developed) and increased veneration of Mary.	Mariology Further dogmas (e.g., Assumption of Mary, 1950 — though the devotion was already widespread).	Mariology Mary is highly venerated (e.g., Immaculate Conception, Assumption, Queen of Heaven).
Use of Statues No statues in worship. Focus on Scripture, prayer, and the Lord's Supper.	Use of Statues Statues and icons begin to appear, especially in the East and in catacombs (not yet central).	Use of Statues Statues are prominent in churches and public places. Their use in devotion grows greatly.	Use of Statues Statues, relics, and images become central to Catholic devotion and church art.	Use of Statues Widely present in churches, homes, and public spaces. Often central to Catholic devotion and practice.
SAME CHURCH. DIFFERENT EMPHASIS. A CHANGING PRACTICE. <i>The core claims may be the same, but the expression of Catholicism — in doctrine, devotion, and practice — has changed significantly over time.</i>

CAN A SOUL LEAVE PURGATORY AND GO BACK TO EARTH?

Have you ever heard someone say:
“A soul from Purgatory came back to earth to ask for prayers?”

Stories like this have existed for centuries.

But what does the Catholic Church actually teach?

1. A Soul in Purgatory Cannot Simply Decide to Return.
Purgatory is not a place where souls wander around freely.
The Church teaches that those in Purgatory are already assured of their eternal salvation but still undergo purification before entering the fullness of Heaven.
Their final destiny has been decided.
2. Purgatory Is a State of Purification.
The Catechism describes Purgatory as the “final purification of the elect.”
It is completely different from Hell

Comment as John Kendrick L 2026-09-09 15:57:48

purification of the elect.”
It is completely different from Hell.
Those being purified in Purgatory will eventually enter Heaven. Their purification prepares them for perfect communion with God.

3. The Church Does Not Teach That Souls Normally Travel Back to Earth.
Catholic doctrine does not teach that souls in Purgatory routinely return to earth, wander through people's homes or communicate with the living.
Therefore, Catholics should be careful about stories claiming:
“Your dead relative came back from Purgatory last night.”
A story, dream or alleged apparition is not automatically a teaching of the Catholic Church.

4. Could God Permit an Extraordinary Encounter?
Here we need to be careful.
The Church has a long history of reports of visions and extraordinary experiences involving saints, angels and the dead. But a private report is not the same thing as Catholic doctrine.
If God permitted an extraordinary manifestation for a particular purpose, that would be God's action, not the soul freely leaving Purgatory whenever it wanted.
The Church therefore does not tell Catholics to

whenever it wanted.
The Church therefore does not tell Catholics to seek communication with the dead.

5. What Should We Do Instead?
The Church gives us something much more certain:
Pray for the dead.
Offer Masses, prayers and works of charity for them.
The Catechism teaches that the Church has honoured the memory of the dead and offered prayers for them, especially the Eucharistic sacrifice, because prayer can assist those undergoing purification.
So instead of waiting for a soul to “come back,” we can actively help the souls through our prayers.

In simple words, Purgatory is not a waiting room from which souls freely come and go.
The Church does not teach that souls in Purgatory normally return to earth.
If an extraordinary manifestation were ever genuinely permitted by God, it would be something exceptional, not something souls can simply choose to do.
And we don't need a soul to appear before us to know what we should do:
Pray for the dead. Offer Mass for them. Ask God

KNOW WHAT WE SHOULD DO.
Pray for the dead. Offer Mass for them. Ask God to bring them into His eternal glory.

Now you know.

Have you ever heard a story about someone claiming that a soul from Purgatory appeared to them?

In 1997, two artists and a composer set out to create the most annoying song ever made. They polled 500 people about the musical elements they disliked the most and then crammed them all into one 22-minute track.

The result was "The Most Unwanted Song." It features an operatic soprano rapping over cowboy music, accompanied by bagpipes, accordions, high-pitched flutes, and a tuba. A children's choir periodically interrupts with cheerful jingles about Walmart and various holidays.

The project was a deliberate experiment in musical discomfort, but it found an audience. People who heard it often found the chaos so audacious that it became enjoyable rather than irritating. The song was later released on a CD alongside its counterpart, "The Most Wanted Song." 🎵 🤪 😂

In 1997, artists Komar and Melamid and composer Dave Soldier created a 22-minute song designed to be as annoying as possible. It incorporated elements that a survey of 500 people found to be the most unwanted in music, including bagpipes, cowboy music, an operatic soprano rapping, and a children's choir singing about Walmart . The result was a sprawling, chaotic collage that, against all odds, became a cult favorite.

VISAYAS, MINDANAO POWER SPOT PRICES NEAR P20/KWH

Electricity spot prices in the Visayas surged by 64.9% in August, reaching P18.59 per kilowatt-hour (kWh) from P11.29 per kWh in the previous month.

Mindanao saw an even sharper increase, with prices jumping 88.2% to P19.56 per kWh from P10.39 per kWh.

Luzon, meanwhile, bucked the trend, with spot prices falling 34.2% to P4.80 per kWh from P7.30 per kWh.

The steep increases in the Visayas and Mindanao were attributed to tighter power supply amid higher electricity demand.

July 10, 2001. Ellis Island, New York Harbor. Exactly 63 days before the world changed forever.

🔴 President George W. Bush is captured on a routine visit to New York. The sun is shining, the harbor breeze is cool, and behind him stands the iconic Lower Manhattan skyline, dominated by the Twin Towers. Beside him walks Mayor Rudy Giuliani.

At this moment, it was just another Tuesday. A standard photo-op. Routine political business in a nation at peace.

There is an eerie, haunting weight to looking at these images today. We are looking at a man whose entire presidency, legacy, and life are about to be violently redirected, and he has no idea.

In just two months, those gleaming towers behind him would be gone, replaced by a smoking pile of rubble where he would stand with a megaphone, speaking to a shattered nation.

Photographs taken on the brink of history carry a kind of dramatic irony that is hard to shake. They freeze the very last moments of an era that

Photographs taken on the brink of history carry a kind of dramatic irony that is hard to shake. They freeze the very last moments of an era that was about to disappear.

💬 Let's talk:

? What stands out to you most when you see "ordinary" photos taken right before catastrophic historical events?

This actually happened on a real American Airlines flight this week

American Airlines flight 618 from Dallas to Newark had to divert to Baltimore after a 67 year old passenger allegedly hurled racist and homophobic slurs, choked his seatmate, and bit a retired cop who tried to restrain him. Crew and passengers ended up duct taping and zip tying him to his seat for the rest of the flight.

He was arrested on landing and now faces assault and disorderly conduct charges, with the FBI also looking into possible federal charges. Would you have stepped in to help restrain someone like this or stayed out of it.

Vice President Sara Duterte cannot be compelled to testify against herself during her own impeachment trial, her lead Defense counsel said on Tuesday.

During the 23rd day of the impeachment trial, lawyer Sheila Sison cited Section 17, Article 3 of the Constitution, which states that "no person shall be compelled to be a witness against himself."

NILAGLAG?

Pinabulaanan ng Palasyo ang mga kritiko ni Pres. Bongbong Marcos na nagsasabing nilaglag nito ang kaniyang pinsang si dating House speaker Martin Romualdez matapos arestuhin sa kasong plunder.

Iginiit ni Palace Press Officer Usec. Claire Castro na nakabase sa proseso, batas, at ebidensya ang nangyari sa kongresista.

“Wala dapat nilalaglag dito. Kung ano lang ang ebidensyang nandiyan, doon lang tayo bumase,” aniya.

'AKO 'YUNG NAHIHIYA FOR THEM'

Napag-usapan ng dating child star na si Awra Briguela sa interview kasama ang journalist na si Karen Davila ang pagkukumpara sa kaniya kina Miss Universe 2018 Catriona Gray at child model Kendra Kramer.

Aminado si Awra na flattered siya sa mga komento ng netizens, ngunit nahihiya rin aniya siya sa dalawang personalidad.

“Medyo naaano nga po ako, ako ‘yong nahihiya for them kasi hindi ko rin makita,” ayon kay Awra.

Umasa naman ang dating child star na sana ay hindi ma-offend sina Catriona at Kendra sa mga paghahambing sa kanya.

“Pero siguro po sa ilong po talaga. Kasi mga naka-tip po ‘yung nose nila... Sana naman po hindi sila ma-offend,” dagdag niya.

FACTS & KNOWLEDGE

17h •

...

Sara Connell decided she wanted a baby in 2004. She was thirty-five, and she had already stopped ovulating.

She went through fertility treatment and became pregnant with twins. They were stillborn. She tried again, and that pregnancy ended in miscarriage.

By then she had run out of medical options and she did not want to adopt. What she wanted was for someone to carry her and her husband's embryo, and there was nobody obvious to ask.

Around the same time, her mother, Kristine Casey, had retired. She had raised three daughters. She had not given birth in three decades. And she had been sitting with a feeling that she wanted the rest of her life to mean something specific rather than just being time left over.

So she offered.

Nobody treated it casually. Casey went through a full medical workup and a psychological evaluation before doctors at Northwestern Memorial in Chicago would agree. Once they did, the embryo was created from Sara's egg and her husband Bill's sperm, which meant Casey was carrying a child she had no genetic connection to at all. She was, in the clinical language, a gestational carrier. In every other sense she was a sixty-one-year-old woman going through a pregnancy.

Nobody treated it casually. Casey went through a full medical workup and a psychological evaluation before doctors at Northwestern Memorial in Chicago would agree. Once they did, the embryo was created from Sara's egg and her husband Bill's sperm, which meant Casey was carrying a child she had no genetic connection to at all. She was, in the clinical language, a gestational carrier. In every other sense she was a sixty-one-year-old woman going through a pregnancy.

Finnean Lee Connell was delivered by cesarean section in February 2011. His grandmother had given birth to him, making her the oldest woman ever to give birth in the city of Chicago.

Her obstetrician, Dr. Susan Gerber, said afterward that the surgery itself was straightforward, and that what was extraordinary was the emotional weight in the room.

Casey had some trouble with her kidneys after the delivery. It was treated and she recovered.

Sara had spent seven years losing pregnancies. Her mother spent nine months getting her one back.

CANCER TOOK HER BREASTS. NOW SHE PAYS TO FIND IT IN OTHER WOMEN.

At 36, Christina Applegate lost both breasts to cancer. Then she learned other high-risk women were skipping lifesaving scans because they cost \$3,000.

So she built a fund, Right Action for Women, to cover it.

She rarely talks about it but, for years, women in the US have been getting the MRI because of her.

anong lahi ang mga pogi at maganda tagalog o bisaya

pumili ng isa

Sige, pag pinilit mo ako - Bisaya.

Hindi dahil pangit ang Tagalog, pero yung Bisaya kasi may combo ng ganda + lambing ng boses + ngiti na palaban. Parang may natural charm na hindi pinipilit.

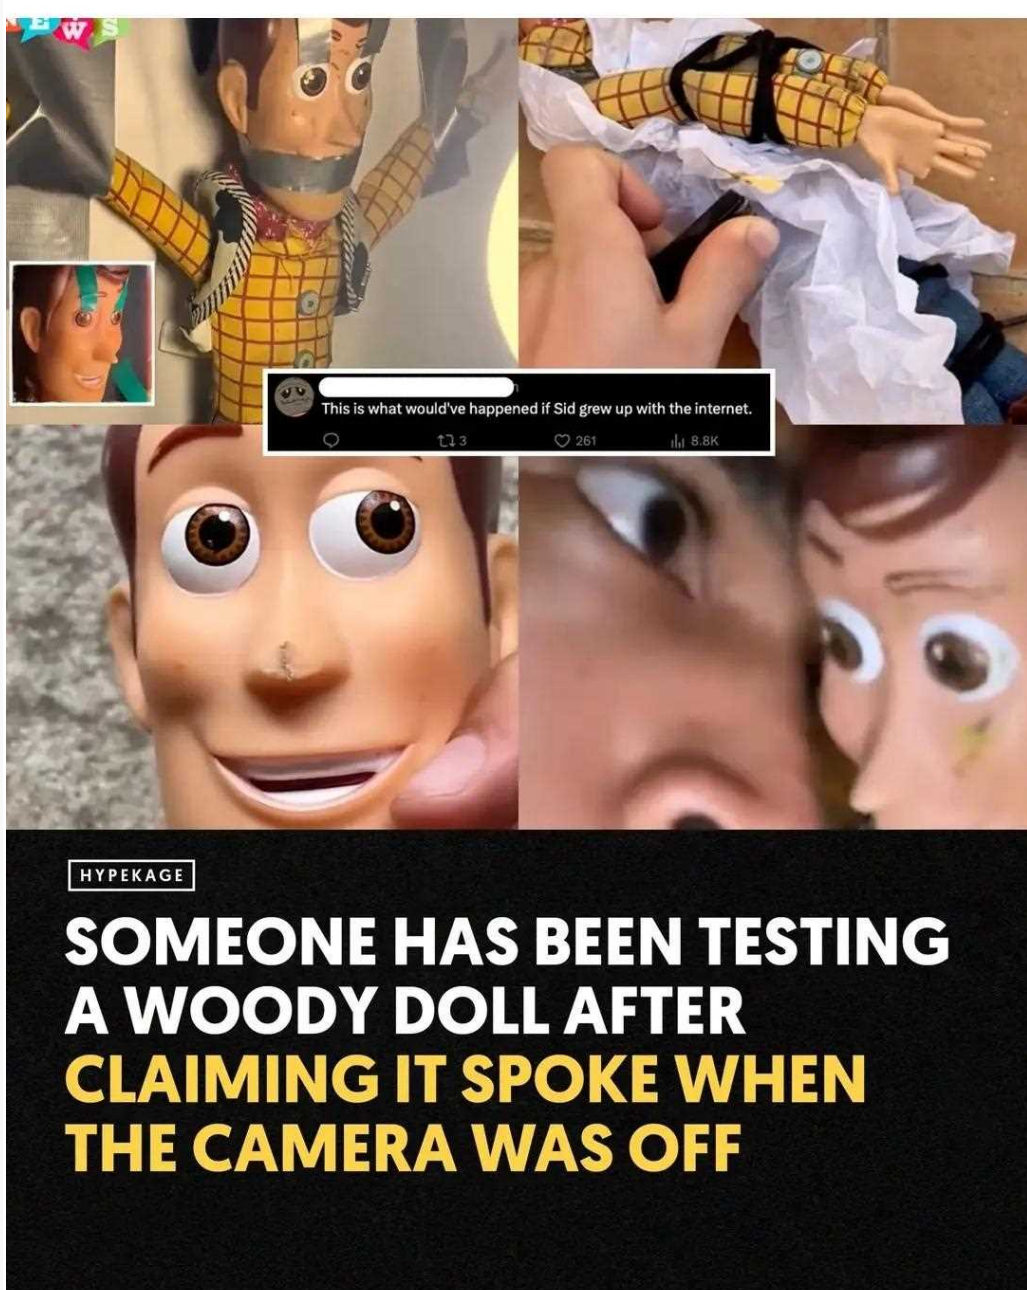

Pero disclaimer: bias ko lang to ha, maraming Tagalog na sobrang pogi/maganda din. Bisaya lang yung mas madalas nakakagulat pag nakita mo in person.

UNAPPROVED STO. NIÑO STATUES BURNED

The Diocese of Laoag reportedly asked Catholics to surrender and subsequently burned statues of the Santo Niño that were allegedly prohibited because they were not approved by the Roman Catholic Church.

The following are among the statues said to be prohibited:

1. Santo Niño images that are approved but have allegedly been subjected to occult rituals.
2. Santo Niño de la Suerte, depicted with a bird, grapes, or a container for coins.
3. Santo Niño de Palaboy.
4. Green, yellow, and sometimes red Santo Niño images wearing a belt and hat.
5. Santo Niño depicted naked and/or with an anting-anting (amulet).
6. Santo Niño de la Sacristan.

The Catholic Bishops' Conference of the Philippines (CBCP) has also previously warned about these practices, stating that certain forms of Santo Niño images have been acculturated with pagan, Feng Shui, and occult practices that some people seek to incorporate, partly because these versions are easier to sell.

with pagan, Feng Shui, and occult practices that some people seek to incorporate, partly because these versions are easier to sell.

According to exorcists, these practices are allegedly a form of infestation involving sacramentals. However, such objects are sometimes still blessed by priests, as many priests may not have specialized expertise in exorcism and spiritual warfare.

The approved Santo Niño images are said to include the Venerated Niño images found in parishes, the Santo Niño of Cebu and Prague, and the Santo Niño depicted with the Globe, Scepter, and Crown.

The prohibition of the practices mentioned above is attributed to CCC 2138, which states:

“Superstition is a departure from the worship that we give to the true God. It is manifested in idolatry, as well as in various forms of divination and magic.”

The exorcist of the Diocese of Laoag, Rev. Fr. Danilo Devaras, and case officer Bro. Fernando Pascual reportedly continue to receive unapproved images surrendered by Catholics.

KAPUSO FANS, GALIT PA RIN? MHIE, PAHINGA NAMAN. 😭

Ang lala ng energy ng ibang Kapuso fans—parang may personal vendetta pa rin kahit tapos na ang issue. One thing is supporting your network; another is repeatedly dragging shows and artists from the other side just because hindi nag-perform the way you wanted.

And honestly, ano bang napapala ng ganitong klaseng fandom war? The industry is already fighting for audiences, advertisers, productions, and relevance in a landscape that's getting harder every year. Tapos fans themselves are making it even more toxic for everyone involved.

Meanwhile, the networks are out here collaborating, co-producing, sharing talents, and doing business with each other. 😂

Kayo lang ang nag-aaway. Yung networks, nagmi-meeting na. 😭

Maybe it's time to stop treating every ratings result or struggling show as ammunition against the other network.

Support your Kapuso shows, sure. Pero hindi kailangang maging masaya sa downfall ng iba. At this point, hindi na fandom loyalty ang dating—personal grudge na, mhie. 🍷

Gagawaran ng Philippine Normal University (PNU) si dating senador at eight-division world champion Manny Pacquiao ng honorary doctorate degree na Doctor in Physical Education and Sports, Honoris Causa.

“Pacquiao’s contribution to Philippine sports is bigger than his victories. His greatest legacy lies in what his journey has come to represent,” saad ng pamantasan.

A 13-year-old boy says the Virgin Mary appeared to him. One month later, doctors said surgery was no longer needed.

Dominic Auricchio's calling began when he was only four, after a dream in which God told him to become a priest. Years later, in December 2022, doctors discovered a large tumor in his brain. Surgery was being considered because of its location and the seriousness of the situation.

Then, in May 2023, Dominic says the Virgin Mary appeared to him in his bedroom and told him that everything would be all right. The following month, another scan brought remarkable news.

His mother says the family was told there was no longer any reason to proceed with surgery. Today, the tumor appears on scans as only a very small spot.

Through it all, Dominic remained deeply committed to his Catholic faith. He serves at Mass, helps people with disabilities at his parish, and hopes to enter the priesthood one day.

Thomas Henry Huxley coined the term *agnosticism*.

Agnosticism is a position that questions the [existence](#) of [God](#) or the [divine](#). It is typically treated either as a personal attitude that [suspends judgment](#) or as the philosophical claim that God's existence is [unknowable](#). Agnosticism contrasts with [theism](#), which affirms God's existence, and [atheism](#), which denies it. It is understood either as a neutral middle ground between the two or as a rejection of their shared assumption that [knowledge](#) is attainable.

Proponents of agnosticism typically hold that [evidence](#) regarding God's existence is inconclusive and that [intellectual humility](#) demands suspending judgment.

Different groups of critics contend that there is decisive evidence either for or against God's existence. Agnosticism is often associated with a secular lifestyle that resembles atheism in practice, but it does not necessarily preclude [religion](#). The term was coined in the 19th century by [Thomas Henry Huxley](#) (*pictured*), but precursors already existed in [ancient Greek](#) and [Indian thought](#). (*[Full article...](#)*)

Hindi lahat ng ama ay palabati o mahilig magpakita ng emosyon. Minsan, sa simpleng kilos lang nila makikita kung gaano sila kaproud sa kanilang anak.

Napansin online ang isang sweet na moment ng mag-ama matapos ibahagi ni ameerified ang video ng isang ama na tahimik na kumukuha ng litrato sa kanyang anak habang naka-duty bilang security guard.

Ayon sa nagbahagi ng video, regular siyang customer sa lugar kung saan nagtatrabaho ang guwardiya. Napansin niya ang mag-ama at naantig sa simpleng eksena nang makita niyang kinukuhanan ng ama ng litrato ang anak habang nagtatrabaho ito. 📷

Walang mahabang salita, walang engrangendng sorpresa—isang simpleng litrato lang, pero ramdam ang pagmamahal at pagmamalaki. ❤️

Minsan, hindi kailangang sabihin ng isang ama

During his visit to the Shrine of Our Lady of Good Counsel in Genazzano on September 7, 2026, Pope Leo XIV presented a Golden Rose to the beloved Marian image.

The Golden Rose is one of the oldest and highest papal honors, traditionally given to shrines, churches, or Marian images as a sign of special esteem and devotion. Pope Leo's gift featured three branches, symbolizing the Holy Trinity. Interwoven among them were twelve stars, recalling the crown of the woman in the Book of Revelation and representing the whole Church gathered around Mary. A rosary was also incorporated into the design.

The base of the rose carried several coats of arms: that of the Shrine of Our Lady of Good Counsel; Pope Martin V, who first sent a Golden Rose to Genazzano in 1431 (later lost during the Napoleonic era); Pope Leo XIII, who elevated the church to the rank of basilica; and Pope Leo XIV himself.

By offering the Golden Rose, the Pope renewed an ancient tradition and expressed his deep personal devotion to the Mother of Good Counsel, who has accompanied him throughout his life. The gesture stands as both an act of

The Archdiocese of Seoul in South Korea has entered “the era of 1,000 priests” after ordaining 26 new priests on February 7, 2025. The ceremony, presided over by Archbishop Peter Chung Soon-taick, brought the total number of priests in the archdiocese to exactly 1,000.

Archbishop Chung urged the newly ordained to serve “with true love and constant joy,” reminding them that they were chosen to carry out God’s work as collaborators of the bishop. He called them to follow the example of the Good Shepherd, who came not to be served but to serve.

The milestone comes 194 years after the archdiocese’s founding. Seoul is the largest and most important archdiocese in South Korea and will host World Youth Day in 2027. Nationwide, the Korean Church has 5,721 priests and has ordained more than 7,000 throughout its history, beginning with St. Andrew Kim Taegon in 1845.

Among those ordained was Father Kim Dong-jun, the second deaf Korean priest and the fourth in Asia. He will serve as assistant pastor at Ephatha Parish, the archdiocese’s first parish for the deaf.

The inverted cross may be the most misunderstood Christian symbol ever.

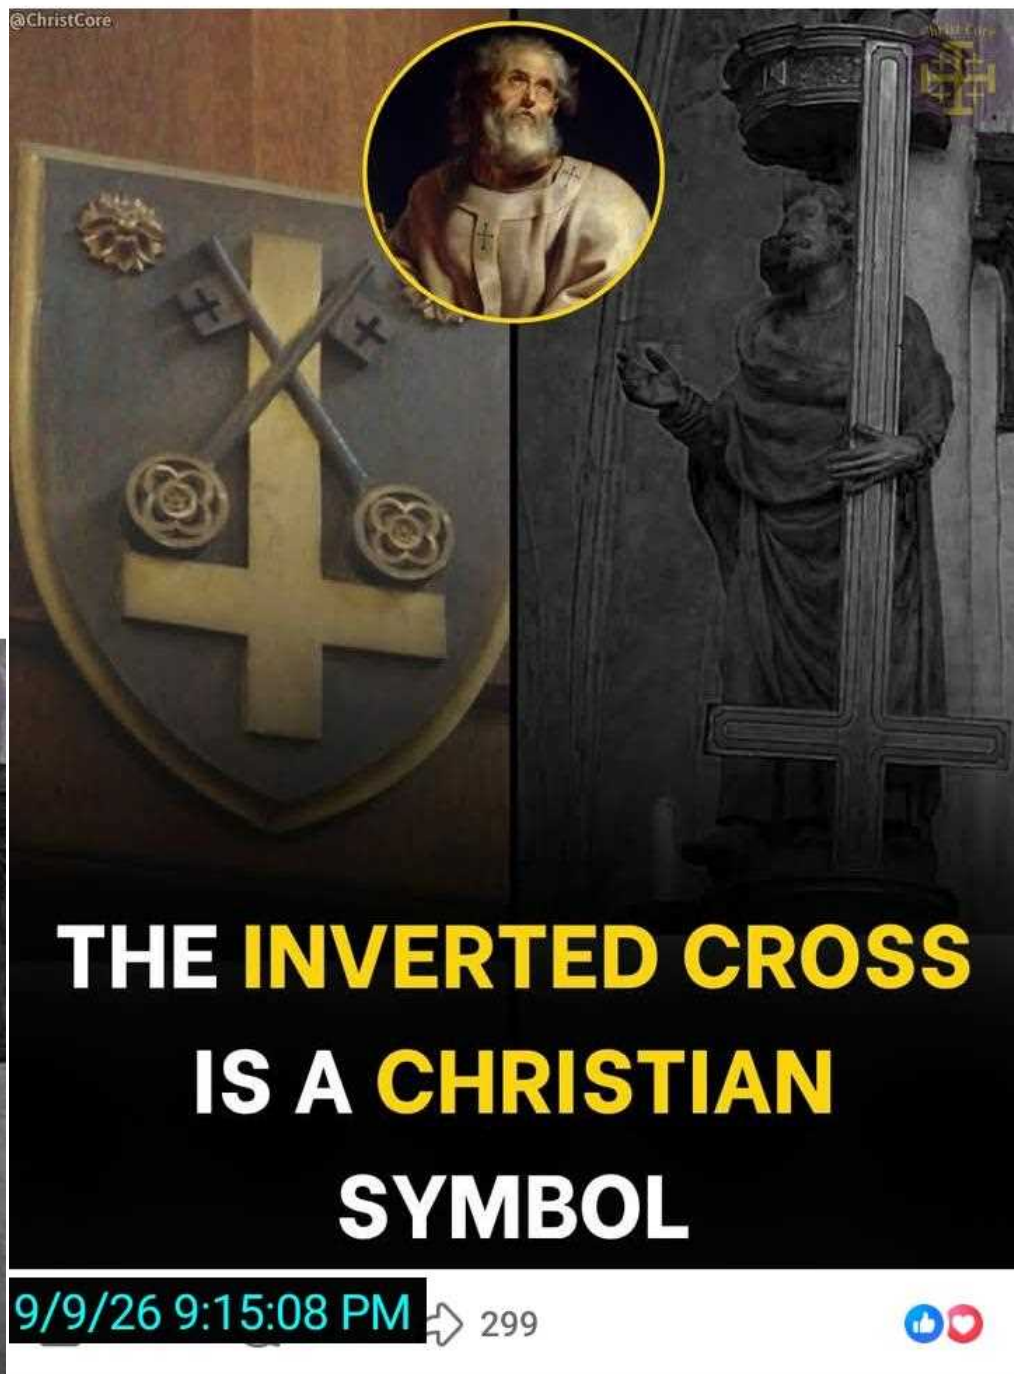

Long before it was adopted by horror films or anti-Christian imagery, the upside-down cross was known as the Cross of Saint Peter. According to ancient Christian tradition, Peter was crucified upside down in Rome because he considered himself unworthy to lose life in the same manner as Jesus Christ.

For centuries, the symbol therefore represented Saint Peter, humility, and devotion to Christ. It can still be found in churches, Christian art, and heraldry connected with the Apostle. Before it became a symbol of rebellion against Christianity, it was a symbol of an Apostle's humility before Christ.

EQUAL JUSTICE

An 80-year-old poor man from Pangasinan once faced arrest over 10 kilos of mangoes.

Now, a former House Speaker Martin Romualdez accused in a ₱7.4-billion plunder case is facing arrest while being treated in a hospital.

The circumstances are different. The allegations are different. And everyone accused of a crime is entitled to due process and the presumption of innocence.

But the contrast is difficult to ignore.

For an elderly man with little, the machinery of justice can feel immediate, unforgiving and overwhelming. For someone who once wielded enormous political power, the process can unfold with lawyers, doctors, police officials and the protections that come with prominence.

This is why the issue is bigger than mangoes or billions.

Justice should not depend on wealth, influence or position.

Justice should not depend on wealth, influence or position.

A poor Filipino accused of taking something worth little deserves the same dignity under the law as a powerful Filipino accused of taking something worth billions.

The law must be firm—but it must also be fair.

If the justice system is to command the people's trust, it must show that there is only one standard: equal justice for everyone.

Mangoes or billions, the law must see the person—not the power behind the person. EDITORIAL

Where Actually Are Heaven and Hell?

2026-09-09 9:49:30 PM

WHERE ACTUALLY ARE HEAVEN AND HELL?

When someone dies, we often hear:

“They have gone to Heaven.”

But where exactly is Heaven?

And if Heaven is “up there,” does that mean Hell is somewhere “down there”?

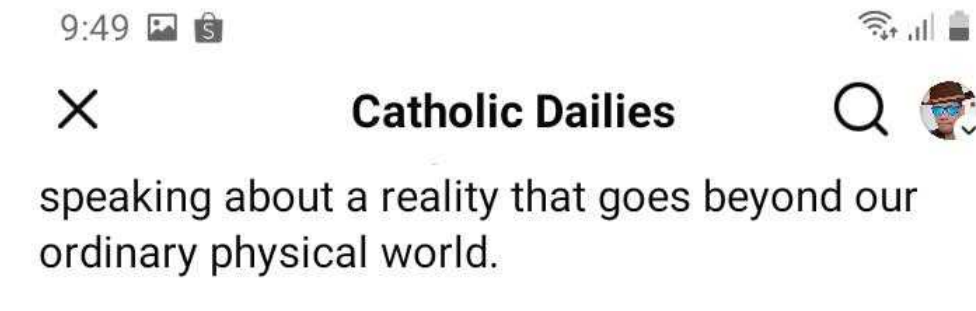

The Catholic answer is fascinating.

1. Heaven Is Not a Place You Can Locate on a Map.

Heaven is not a planet, a distant galaxy or a physical location somewhere in outer space. The Church teaches that Heaven is ultimately being with God and sharing in His divine life. It is the blessed state of those who are perfectly united with God.

Jesus said:
“In my Father’s house there are many dwelling places.” (John 14:2)
So when Catholics speak of Heaven, we are speaking about a reality that goes beyond our ordinary physical world

2026-09-09 9:49:36 PM drick Limas

speaking about a reality that goes beyond our ordinary physical world.

2. Heaven Is Real, But Its Full Reality Is Beyond Our Present Experience.
This does not mean Heaven is imaginary. The resurrection of Jesus gives Christians the foundation for believing in eternal life and the resurrection of the body. After the resurrection, Christ entered into heavenly glory. The Catechism teaches that Heaven is the ultimate end and fulfilment of humanity. We simply cannot point a telescope toward a particular part of the universe and say, “That is Heaven.”

3. Hell Is Not Simply a Giant Fire Somewhere Beneath the Earth.

The same applies to Hell. Catholic teaching does not require us to believe that Hell is a physical underground location filled with literal earthly fire. Hell is the definitive self-exclusion from communion with God. Jesus repeatedly used powerful images such as fire, darkness and Gehenna to communicate the seriousness of rejecting God. These images express a reality far greater than ordinary physical geography.

2026-09-09 9:49:40 PM drick Limas

seriousness of rejecting God.
These images express a reality far greater than ordinary physical geography.

4. So Where Are Heaven and Hell?
The simplest Catholic answer is:
They are not locations we can identify using earthly coordinates.
Heaven is the eternal communion of life and love with God.
Hell is definitive separation from God.
The Church also teaches that the ultimate destiny of the redeemed involves the resurrection of the body and the transformation of creation, what Scripture describes as “a new heaven and a new earth.”
So Heaven is not merely “floating somewhere as a spirit forever.”

5. What About “Up” and “Down” in the Bible?
The Bible often uses spatial language such as “Heaven above” and “the depths” to communicate spiritual realities.
This language should not always be interpreted as a geographical description of the universe.
When Jesus ascended into Heaven, for example, the important truth is not that He travelled to a particular point in the sky.
He entered into the glory of the Father.
Our physical universe has coordinates.

He entered into the glory of the Father.
Our physical universe has coordinates.
Eternal realities cannot simply be reduced to coordinates.

In simple words, Heaven is real. Hell is real. But neither should be understood simply as physical places somewhere in the sky or underneath the earth.
Heaven is eternal communion with God.
Hell is definitive separation from God.
And the Christian hope is even greater: the resurrection of the body and life in the world to come.

Now you know.

Before reading this, did you imagine Heaven as literally being somewhere above the clouds?

IPINAGPASADIYOS 🙌

Naging emosyonal si “Oh My Gan!” host Ganiel Krishnan nang ikuwento kung paano napalakas ang pananampalataya nang dumaan sa isa sa pinakamalungkot na yugto ng kaniyang buhay.

Panoorin ang pagsalang ni Ganiel sa kanyang birthday episode sa “Oh My Gan!” sa ABS-CBN News YouTube channel ngayong Miyerkules, September 9, 8 PM.

GRETCHEN: So naniniwala ka na... na minsan si God ine-elbow 'yong ibang bagay, to make room for bigger things?

GANIEL: Super. Hindi ako makapaniwala na ito 'yong nangyari after heartbreaks and losing people in the past. Kaya pala kailangang mangyari 'yon... para itama ni God 'yong direksyon [ko].

Pinilit ko rin kasi... Ito 'yong mga situations na dapat nandoon ako, rooms that I have to enter. Pero 'pag sinabi ni God na hindi, hindi talaga.
